

SLEEPAWAY CAMP PROCEDURES

Check in Procedures:

Sunday afternoon, please arrive between 4 - 5 pm. Park in the main parking lot at the end of Lakeview Avenue. Proceed to Welcome Center to check in.

You will be given your site assignment, schedule, map & other important info. Parent and camper may proceed to the site. Carts will be available for use if necessary. Please return your cart as soon as you unload so others can use it.

Counselors will welcome campers at the site. Once camper has settled in, parents will say their goodbyes and campers will be escorted to dinner by staff.

Site Procedures:

Please observe good conservation practices. Do not deface trees or pick, cut or remove bushes, flowers or trees from camp. The site must be left in better condition than it was when you arrived. Sanitary napkins, tampons, paper towels, etc. must be disposed of in the garbage, never flushed.

GSSC is not responsible for personal articles lost, damaged or stolen on Camp property. Safe guard against insect bites. The Board of Health recommends insect repellent that contains the chemical DEET to prevent insect bites. Everyone should check themselves for insect bites throughout their stay. Stay on the paths and wear long pants when possible in the evening.

These policies are designed to create a warm and welcoming community at Camp Edey. Thank you for your understanding and cooperation. For additional questions, concerns, allergies or dietary restrictions, please contact camp@gssc.us.
